

**New! Green-Line High Performance Jacketed Tubing**  
Expand the working range of your pumping system with the widest selection of tubing and hose choices.

QED Green-Line High Performance Jacketed Tubing is constructed with new, enhanced polyamide material. Green-Line provides improved toughness and less water absorption. The new material is 17% stronger and with 30% less water absorption. This means the tubing will swell and stretch less than other types while being much stronger. Additionally, less water absorption means less weight. Green-Line is Underwriters Laboratory rated, meeting UL94 HB flame retardant specifications. QED is committed to delivering high quality and high performing products for our customers and Green-Line High Performance Jacketed Tubing is our latest product improvement.

### Features

- High tensile material (17% improvement)
- Reduced humidity absorption (30% improvement)
- UL 94 rated

### Benefits

- Less stretch and higher break strength means longer useful life in deeper wells
- Lower water absorption means longer life and improved strength, less weight gain over time
- Meets UL 94 HB flammability requirements

### Easy Fittings

The Easy Fitting™ Quick-release Connector is a new type of lower-cost, quick fitting for the AutoPump® (Patent Pending), designed for severe duty downwell conditions at landfills and remediation sites. The Easy Fitting allows the AutoPump to be quickly disconnected from its tubing and hose sets, eliminating the need to cut the tubing. Constructed of high-quality stainless steels, the Easy Fitting is designed to function well even with silt and solids present.

### AP4 - AutoPump® Retro kits (for existing pumps)

- 303016 Easy Fitting kit, 1" Discharge Tubing or 3/4" Hose
- 303017 Easy Fitting kit, 1 1/4" Discharge Tubing or 1" Hose

### AP4 - AutoPump® kits (for new pumps)

- 303012 Easy Fitting kit for, 1" Discharge Tubing or 3/4" Hose
- 303013 Easy Fitting kit for, 1 1/4" Discharge Tubing or 1" Hose

### Hose and Tubing Advantages

All dimensions of QED tube, hose and fittings are carefully designed and controlled to ensure high flow capacity, easy assembly, high pullout strength and leak-tight connections. QED offers an unmatched range of connector and fitting options to make installation and maintenance easier and more efficient.
