

## Air Stripper Primary Information Required For Quotation

1. Site Name/Type of Site: \_\_\_\_\_

Location of Site (City/State): \_\_\_\_\_

2. System Flow (Maximum and Average, GPM): \_\_\_\_\_

Contaminants	Influent (ppb)	Effluent Required (ppb)
Benzene		
Toluene		
Ethylbenzene		
Xylene		

3. Air Temperature: \_\_\_\_\_ Water Temperature: \_\_\_\_\_

4. Site Power (Voltage and Phase): \_\_\_\_\_

5. Will this site be in an explosive environment (are explosion-proof motors and/or intrinsically-safe switches required)?  YES  NO

6. Is a feed pump required?  YES  NO Gravity Discharge?  YES  NO

7. Would this be a skid-mounted system, or would the equipment be shipped loose for customer installation?  Skid-Mounted  Loose

8. Will liquid  or vapor-phase  carbon be required?  YES  NO

If yes, and you are supplying your own, how many vessels will you have? \_\_\_\_\_

We will require a pressure curve to determine how much back pressure our blower pump will have to deal with.

9. Is a control panel needed to operate the air stripper system, or will you provide your own?  
 Need Panel  Will provide our own

**The World Leader in Air Powered Pumps** For Remediation, Landfills and Ground Water Sampling  
 Ground Water Sampling • Remediation, Leachate and Condensation Pumps • Floating Layer Recovery Systems • Air Strippers
